

Quality Assurance Manager

Federal Foam Technologies, an industry leader in custom fabrication of flexible cellular and plastic materials, is currently looking for a Quality Assurance Manager in New Richmond, WI:

Responsible for developing, implementing, coordinating, and monitoring the Federal Foam Technologies quality system and directing Quality Assurance department personnel, ensuring that ISO 9001 and corporate quality objectives are achieved. Serves as intermediary between FFT, our suppliers, and our customers and is instrumental in developing quality plans for new programs and projects. Acts as liaison with external parties on matters relating to FFT's quality system and ISO 9001 registration and communicates FFT quality performance to internal personnel. Bachelor's degree preferred, with a minimum of five years related experience and/or training; or equivalent combination of education and experience. CMM experience (preferably with a FARO portable unit), part staging concepts and techniques, geometric dimensioning and tolerancing, root cause analysis, quality system auditing experience, and effective negotiation skills required. Good computer knowledge and background with experience in Microsoft Office and a current valid driver's license are required. Candidates must be detail oriented, have strong communication skills and have the ability to work in a fast-paced environment while demonstrating flexibility, commitment to teamwork, and a willingness to change assignments and work overtime to meet customer needs.

FFT is known for our business integrity, high quality standards and forwarding thinking while meeting or exceeding our customer's expectations. We offer a competitive comp/benefit package including a matching 401k plan. For employment application and more information about FFT, please visit our website. If you are interested in being considered for this position, please send a resume with cover letter along with our application to:
